CocoonDay, 2003-11-18, Vienna

community

Some facts ...

- **big community** of ...
 - ♦ about 20 active committers
 - ♦ thousands of people subscribed to our mailists
 - ♦ many companies/institutions using Cocoon
 - Swiss Interbank Clearing AG
 - Vodafone
 - NASA
 - BASF IT-Services
 - ...
- have our own anual conference (Gent/Belgium)

History

- started by **Stefano Mazzocchi**
- Cocoon 1
- Cocoon 2 (completely new architecture)
 - ♦ Cocoon 2.0.x
 - ♦ Cocoon 2.1.x
- Cocoon has become an Apache top-level project
<http://cocoon.apache.org>
- current release: **Cocoon 2.1.3** (released last week)

Cocoon is open source software

- distributed under the **Apache Software License**
 - ♦ non-viral (unlike GPL/LGPL)
 - ♦ fits business needs

<http://cocoon.apache.org/2.1/license.html>

- development process is based on **open source tools**
 - ♦ Mailing lists, Bugzilla, CVS, Wiki, WebLogs

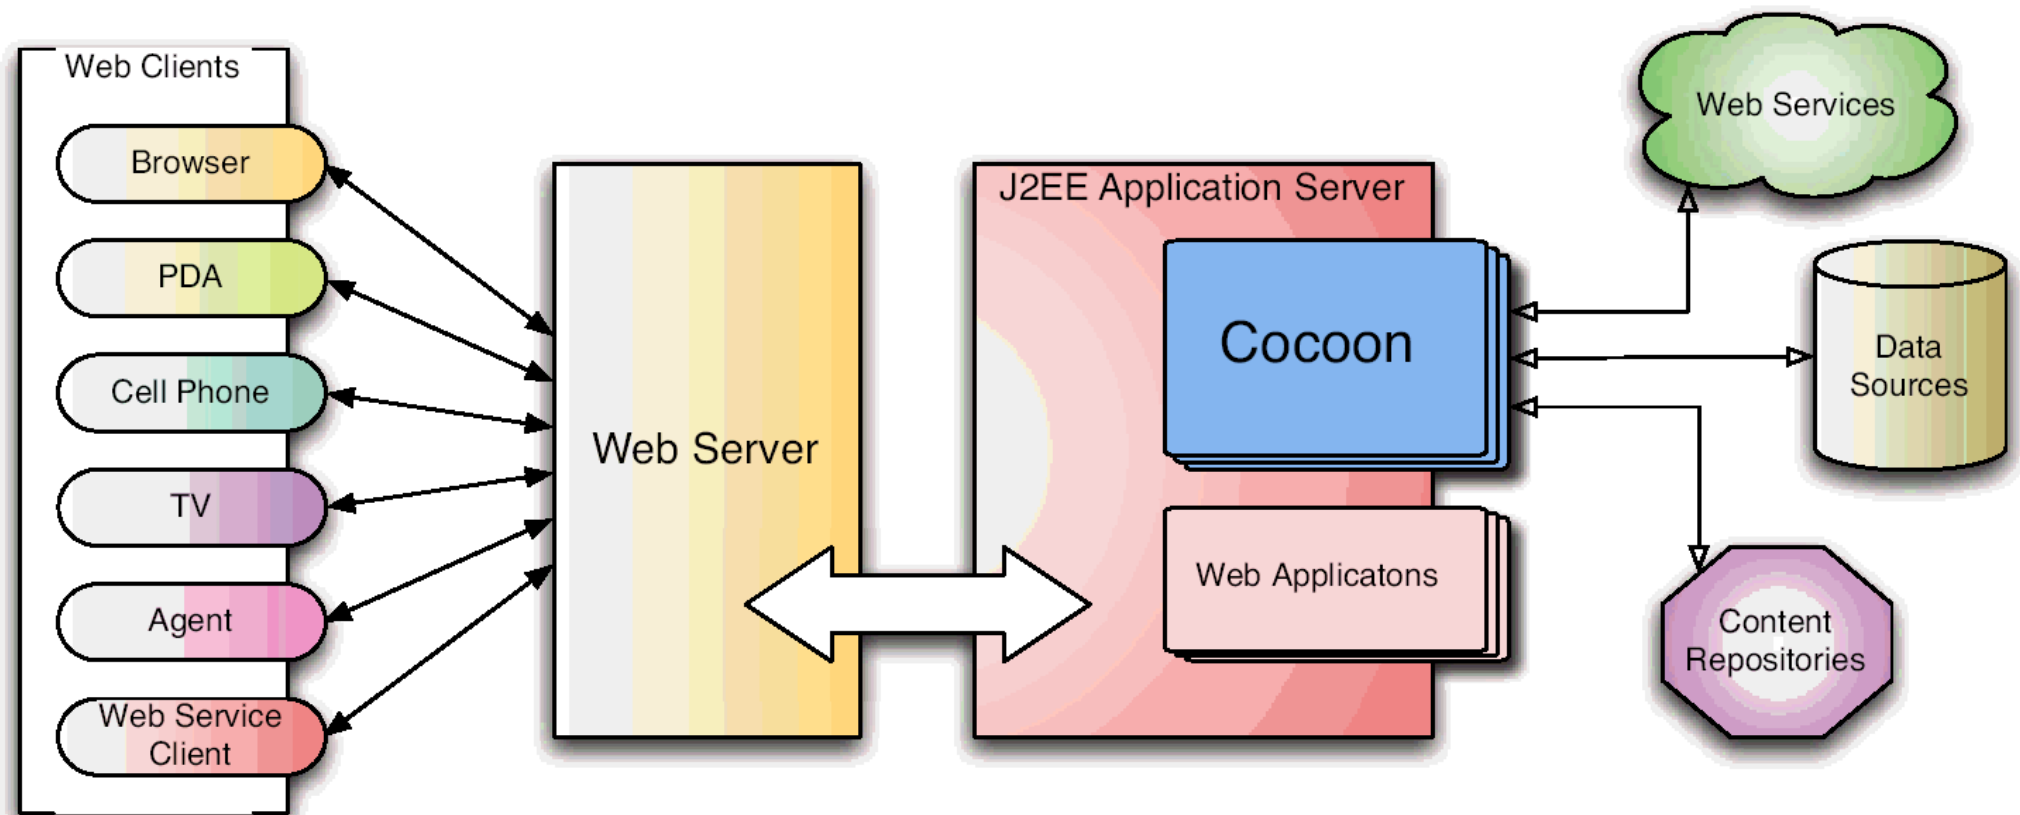

Community Tools

- **Mailing lists**
users@cocoon.apache.org, dev@cocoon.apache.org,
cvs@cocoon.apache.org, docs@cocoon.apache.org --> read only
<http://marc.theaimsgroup.com>, <http://nagoya.apache.org/eyebrowse/>
- **CVS (versioning system)**
HTTP-access: <http://cvs.apache.org/viewcvs.cgi/cocoon-2.1/>
direct access: :pserver:anoncvs@cvs.apache.org:/home/cvspublic
- **Bugzilla (Bug tracking system)**
<http://nagoya.apache.org/bugzilla/>
- **Project documentation - website**
<http://cocoon.apache.org>
- **Wiki! (community documentation)**
<http://wiki.cocoondev.org>
- **Cocoon related projects**
<http://www.cocoondev.org>

What is Cocoon?

... web glue for your web application
development needs

Cocoon and J2EE

by Stefano Mazzocchi, Gent 2003 – **What Cocoon is?**
